PerShoes

Nano Footwear Protector Against Liquids & Stains

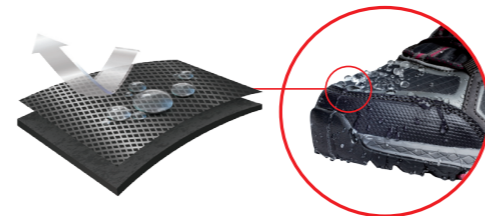

What Is PerShoes?

PerShoes is a water-based footwear protection spray that adds liquid-repelling properties to the surfaces it is applied to. Not only does it prevent liquids, oils, mud and dirt from being absorbed into the material of your shoes and boots in the first place, but it also ensures easier cleaning thanks to the protective layer with which it coats the surface.

- 
Easy Clean
- 
Water & Oil Repellent
- 
Stain Free
- 
Breathable
- 
Chemical Resistance
- 
Eco Friendly
- 
1 Year / 10 Washes
- 
3 Pairs of Shoes

How Does PerShoes Work?

The safe and environmentally friendly water-based formula of PerShoes coats the surface of your shoes, providing them with an invisible layer that lasts up to one year. The nano coating also protects your shoes against the damaging effects of cleaning products and chemicals, lengthening the lifespan of any type of footwear made of canvas, suede or nubuck. The transparent and breathable coating does not affect the appearance or comfort of your shoes in any way.

Which Surfaces Does PerShoes Protect?

You can use Nasiol PerShoes on shoes or boots made of the following materials:

- Canvas
- Suede
- Nubuck

Known for their susceptibility to water damage, these delicate materials have long been omitted from winter and fall outfits. With the new water-based Nasiol **PerShoes**, you can create the perfect look in any weather without worrying about the cleanliness and longevity of your footwear!

PerWear

Nano Fabric Protector Against Liquid & Stains

What Is PerWear?

PerWear is a water-based fabric protector designed to prevent dirt and stains from ruining your precious clothes. Its special eco-friendly formula forms a safe and breathable nano-sized coating on a variety of surfaces, ensuring the longevity and protection of your casual daily clothes, outerwear, and sportswear, as well as your fine apparel.

- 
Easy Clean
- 
Water & Oil Repellent
- 
Stain Free
- 
Breathable
- 
Chemical Resistance
- 
Eco Friendly
- 
Up to 1 Year / 10 Washes
- 
3 Shirts / 1 Suit

How Does PerWear Work?

PerWear's water-based formula is resistant to heat and cleaning products, so one application can remain effective for up to a year. It creates a liquid-repellent layer on the surface of your clothes, preventing the absorption of water and oil into the fabric. In other words, liquids flow away from the surface of your garments before they can even form a stain! The nano coating not only acts as a protective layer on your clothes, but it also provides them with easy-to-clean properties; eliminating the fear of damaging delicate fabrics during cleaning, stain removal, and storage.

Which Surfaces Does PerWear Protect?

You can use PerWear on a variety of items ranging from T-shirts and shirts to pants, sweaters, dresses, ties, and suits. It can safely be applied to clothing items made of the following materials:

- Cotton
- Silk
- Polyester
- Linen
- Fleece
- Cashmere
- Satin

A tough stain may be a part of everyday life, but it is a risk many of us are not willing to take—especially on special occasions. Luckily, nanotechnology comes to the rescue when we fear for the spotless appearance and longevity of our personal garments, preventing stains before they get to ruin our most enjoyable moments.

PerShine

Anti-Scratch Nano Coating For Valuables

What Is PerShine?

Nasiol PerShine is a nano coating product that forms a transparent protective layer over surfaces made of glass, metal and plastic. Now introduced in a single-use vial, it can easily be applied to a variety of personal belongings ranging from mobile phones and tablets to jewelry and accessories. PerShine is a long-lasting and convenient product that keeps problems like small scratches, dirt, fading and stains at bay.

Easy Clean

Water & Oil Repellent

Stain Free

Breathable

Chemical Resistance

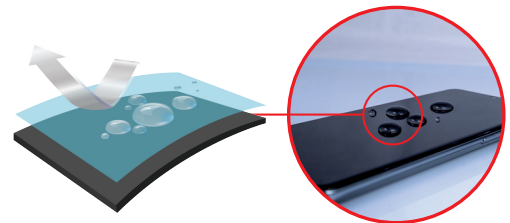

Eco Friendly

Up to 1 Year

How Does PerShine Work?

Following just one application, the nano coating creates a protective, water-repellent layer on your valuables that remains effective for up to one year. This invisible coating keeps liquids and stains from sticking to the treated surfaces, safeguards your devices and accessories from scratches, in addition to facilitating their cleaning process by preventing the potential buildup of dust and dirt.

Which Surfaces Does PerShine Protect?

Nasiol PerShine can be applied to the glass, metal, and plastic surfaces of electronic devices such as mobile phones, tablets, laptops and computers, as well as to accessories such as watches, glasses, and jewelry. The product consists of one single-use vial, which can treat the following accessories:

**9 smartphones or
2 tablets or
18 watches or
9 pairs of glasses**

In addition to offering functionality through resistance to scratches, liquids and dirt, **PerShine** keeps your valuables looking their best—pristine, and shinier than ever!
