# WHO ARE WE?

NASIOL is a leading brand that produces nano surface protection products using the latest developments in the field of nanotechnology.

Special formulas developed by Nasiol are widely used in sectors such as automotive, industrial, household goods, textile, personal goods and marine. They can develop products suitable for many sectors and offer private labeling options for those who want to create their own brand.

Nasiol products are sold in more than 145 countries and are distributed all over the world through the R&D Center and Head Office in Turkey, as well as centers in Czech Republic and the USA.

All Nasiol products go through a comprehensive quality control process before they are distributed.

## WHAT DO WE OFFER YOU?

### Ready-Made Products

Choose one of the ready-made product solutions that Nasiol has created for you. Have your own custom box, label and bottle designs.

Page 4 - 5

### Create Your Own Package

Choose chemical, custom box, bottle and all your other components. We will produce and pack for you and send it to you in a saleable condition.

Page 6 - 13

### Bottled Purchase

Choose your chemical and bottle, we will fill and label your bottle and ship it.

Page 14

### Bulk Purchase

Pack and sell the products we offer you in 15L, 30L and higher volumes as you wish.

Page 15

# Ready-Made Products

You can choose one of our ready-made products that we have created for you and leave the rest to us.

All you have to do is send us your designs or your logo to prepare your designs.

## 4-5 Years Durable

### CAR NANO CERAMIC COATING PACKAGE

#### Package Contents

- Chemical
- 50mL glass bottle
- Cardboard box
- Application block
- Suede cloth x3
- Nitrile gloves
- Microfiber cloth x2
- Bottle label
- User manual

## 2.5-3 Years Durable

### CAR NANO CERAMIC COATING PACKAGE

#### Package Contents

- Chemical
- 50mL glass bottle
- Cardboard box
- Application block
- Suede cloth x3
- Nitrile gloves
- Microfiber cloth x2
- Bottle label
- User manual

## 12-15 Months Durable

### CAR NANO CERAMIC COATING PACKAGE

#### Package Contents

- Chemical
- 50mL plastic bottle
- A.Bristol box
- Nitrile gloves
- Microfiber cloth
- Bottle label

## 9-12 Months Durable

### CAR NANO CERAMIC COATING PACKAGE

#### Package Contents

- Chemical
- 50mL plastic bottle
- A.Bristol box
- Application block
- Suede cloth x3
- Nitrile gloves
- Microfiber cloth
- Bottle label

# Ready-Made Products

## 6-9 Months Durable

### CAR NANO CERAMIC COATING PACKAGE

#### Package Contents

- Chemical
- 30mL plastic bottle
- A.Bristol box
- Application block
- Suede cloth x3
- Nitrile gloves
- Microfiber cloth
- Bottle label

## Heavy, Medium, Light Scratch and Hologram Remover

### POLISH

#### Package Contents

- Polish
- Plastic bottle 500g/ 1kg
- Bottle label

## 12-15 Months Durable

### SHOES/CLOTHES PROTECTION PACKAGE

#### Contents

- Chemical
- 50mL plastic bottle
- A.Bristol box
- Bottle label

## 1- Chemical Selection

### Nano Coatings for Thermoset, Thermoplastic, Metal and Alloy Surfaces

Product Name	Durability	Properties	Application Surfaces
<b>Omniphob M59</b> Premium Nano Ceramic Coating	4 - 5 Years	High water and oil repellency, 9H scratch resistance, chemical resistance, high gloss, UV protection, easy to clean, late contamination, longevity, silky touch	
<b>Omniphob M39</b> 9H Nano Ceramic Coating	2.5 - 3 Years	Water and oil repellency, 9H scratch resistance, chemical resistance, high gloss, UV protection, easy to clean, late contamination	
<b>Omniphob M17</b> Easily Applicable Nano Ceramic Coating	12 - 15 Months	Water and oil repellency, chemical resistance, high gloss, UV protection, easy to clean, late contamination, scratch resistance, easy applicability	Thermoset and Thermoplastics Painted Surfaces Metal and Alloys Composite Materials Vehicle Parts Outdoor Equipment
<b>Omniphob M07</b> Nano Ceramic Coating	9 - 12 Months	Water and oil repellency, chemical resistance, high gloss, UV protection, easy to clean, late contamination, scratch resistance, easy application	
<b>Omniphob M06</b> Nano Ceramic Coating	6 - 9 Months	Water and oil repellency, chemical resistance, gloss, UV protection, easy to clean, late contamination, scratch resistance	
<b>SHBC</b> Superhydrophobic Nano Coating	1.5 - 2 Years	Superhydrophobic effect, resistance to contamination, easy to clean, icing resistance, salty water resistance	Non-Absorbent Surfaces Low Porosity or Non-Porous Surfaces
<b>MP55</b> Anticorrosive Nano Coating	9 - 12 Months	Water and oil repellency, chemical resistance, resistance to rust and corrosion, protection against UV, easy to clean	Metal and Alloys
<b>FCC</b> Film Protector Nano Coating	9 - 12 Months	Water and oil repellency, breathability, easy to clean, prevent UV-induced yellowing, resistance to chemicals, protect the self-healing feature of the film, extend the life of the film	Paint Protection Films (PPF) Polyurethane (PU) – Matte & Transparent High Quality PVC Films Vinyl Films
<b>Anti-GRM</b> Anti Graffiti Nano Coating	9 - 12 Months	Water and oil repellency, chemical resistance, UV protection, easy to clean, late contamination	Metal and Alloys Thermoset and Thermoplastics Glasses Ceramics
<b>Anti-VRL</b> Antimicrobial Nano Coating	9 - 12 Months	Breathability, easy applicability	

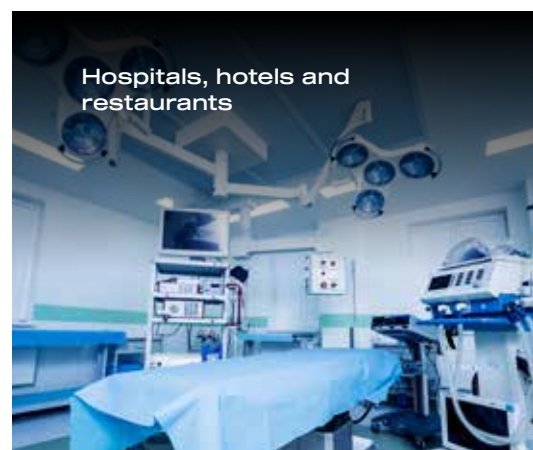

Air, land and sea vehicles

Machines, equipment, plaques and construction components

Hospitals, hotels and restaurants

# Create Your Own Package

## 1- Chemical Selection

### Nano Coatings for Glass and Ceramic Surfaces

Product Name	Durability	Properties	Application Surfaces
<b>C</b> Premium Water Repellent Nano Glass Coating	1.5 - 2 Years	Water and oil repellency, chemical resistance, UV protection, late contamination, easy to clean	Glass and Ceramics Vehicle and Building Exterior Glass Glazed Glass and Ceramics Bathroom and Kitchen Glass Surfaces
<b>C1</b> Water Repellent Nano Glass Coating	9 - 12 Months	Water and oil repellency, chemical resistance, UV protection, late contamination, easy to clean	

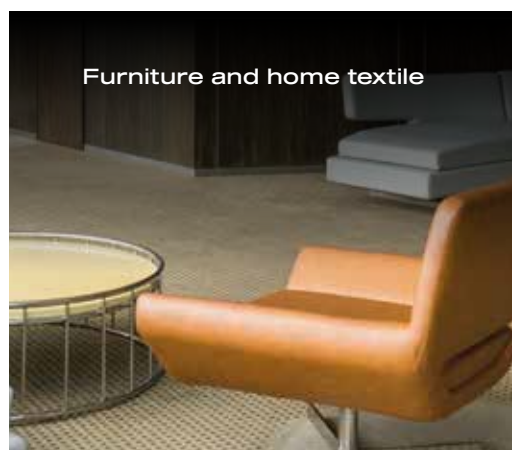

### Nano Coatings for Textile and Leather Surfaces

Product Name	Durability	Properties	Application Surfaces
<b>T-WB</b> Premium Water Based Textile Nano Coating	12 - 15 Months	Water and oil repellency, chemical resistance, easy to clean, late contamination, breathability, easy applicability	Cotton Surfaces Suede Surfaces Canvas Surfaces Wool Surfaces Silk Surfaces Linen Surfaces Polyester Surfaces
<b>T</b> Premium Alcohol Based Textile Nano Coating	9 - 12 Months	Water and oil repellency, chemical resistance, UV protection, late contamination, easy to clean, breathability, easy applicability	Suede Surfaces Nubuck Surfaces Velvet Surfaces Polyester Surfaces
<b>T1</b> Alcohol Based Textile Nano Coating	6 - 9 Months	Water and oil repellency, chemical resistance, UV protection, easy to clean, late contamination, breathability, easy applicability	
<b>LC12</b> Leather Protective Nano Coating	9 - 12 Months	Water and oil repellency, prevent dye transfer, wear resistance, color fading resistance, chemical resistance, easy to clean, late contamination, breathability, easy applicability, UV protection	Artificial Leather Surfaces Treated Natural Leather Surfaces
<b>Anti-VRL</b> Antimicrobial Nano Coating	9 - 12 Months	Breathability, easy applicability, fluoride free content	All Textile Surfaces

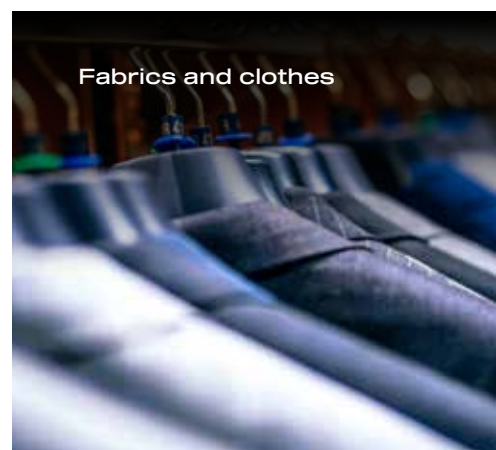

Building and vehicle glasses

Furniture and home textile

Fabrics and clothes

# Create Your Own Package

## 1- Chemical Selection

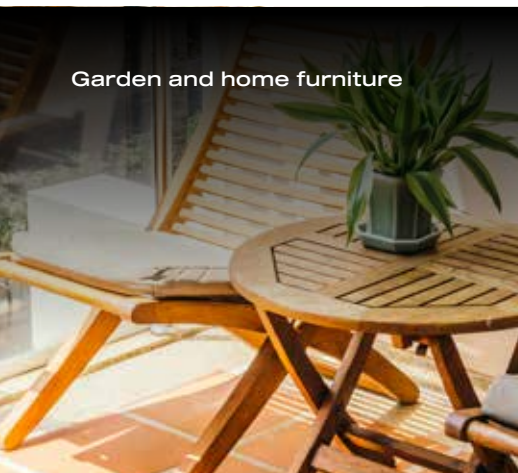

### Nano Coatings for Wood and Absorbent Stone Surfaces

Product Name	Durability	Properties	Application Surfaces
<b>W</b> Natural Wood Nano Coating	9 - 12 Months	Water and oil repellency, breathability, easy to clean, UV protection	Absorbent, Porous and Natural Wood Surfaces
<b>Z</b> Alcohol Based Nano Coating for Mineral Surfaces	1.5 - 2 Years	Water and oil repellency, breathability, easy to clean, UV protection, chemical resistance, water tightness	Natural Stones Concrete Surfaces Painted Surfaces (hydrophilic) Tile, Brick & Floor Tiles Chipped Artworks
<b>Z-WB</b> Water Based Nano Coating for Mineral Surfaces	2.5 - 3 Years	Water and oil repellency, breathability, easy to clean, UV protection, chemical resistance, water tightness	

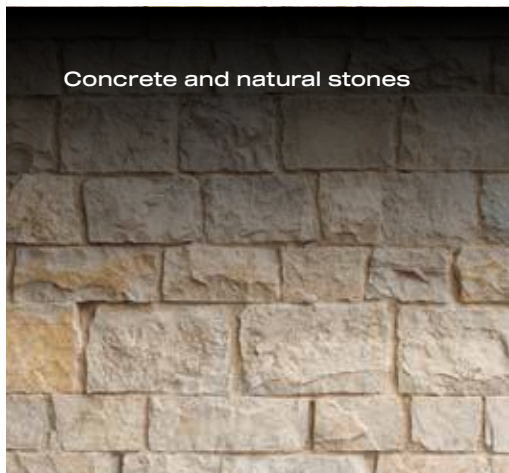

### Scratch Remover Polishes

Product Name	Properties	Application Surfaces
<b>P01</b> Heavy Cut Scratch Remover	Effectiveness on durable surfaces, easy application, fast processing, silicone-free formula	
<b>P02</b> Medium Cut Scratch Remover	Easy application, less polish residue, fast processing, silicone-free formula	Painted Surfaces of Air, Land and Sea Vehicles
<b>P03</b> Fine Cut Scratch Remover	Easy application, high smoothness, fast processing, silicone-free formula	
<b>P04</b> Super Fine Scratch Remover	Less polish residue, hologram removal, high gloss, silicone-free formula	

Garden and home furniture

Concrete and natural stones

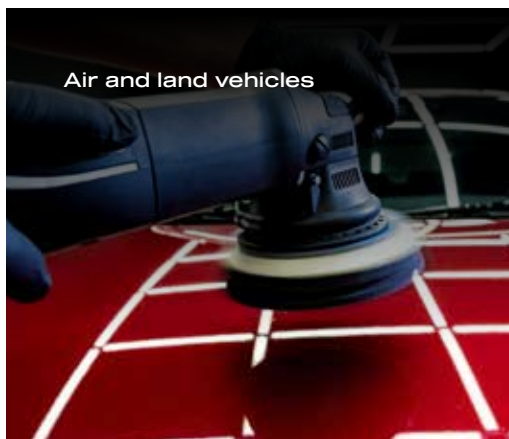

Natural woods

Historical buildings and artifacts

Air and land vehicles

Sea vehicles

# Create Your Own Package

## 1- Chemical Selection

### Cleaning and Care Products

Product Name	Properties	Application Surfaces
<b>UPC</b> Precleaner for Nano Coating	Increasing nano coating performance, cleaning dust, dirt and residue, applicable to all hard surfaces	All Hard Surfaces
<b>APC</b> Multi-Purpose Surface Cleaner	Easily removing dirt and stain, saving time	Plastic, Textile and Leather Surfaces
<b>FCS</b> Foaming Shampoo for Nano Coated Surfaces	Easy to clean, harmless paint protection formula, concentrated formula, nano coating friendly	Vehicle Bodies, Tires and Rims Polished and Ceramic Coated Surfaces
<b>TFS</b> Tire and Trim Polisher	Long lasting shine, easy to clean, late contamination	Vehicle Tires, Various Hard Plastics and Trims
<b>TPR</b> Trim and Plastic Restorer	Protection against sun light, deep shine, original appearance, protection against plastic cracks, late contamination, prevention of dust holding	In-Vehicle Plastic Parts
<b>TF</b> Surface Protective Temporary Film	Flexible coating, UV resistance, protection against insects, easy to insert with water, peel off, can be colored	Thermosets & Thermoplastics Vehicle Body Parts & Lighting Group Optical Devices (Radar, Camera etc.)

Air, land and sea vehicles

## 2- Bottle Selection

### 50mL Bottles

Product Code : PE502  
Material : HDPE  
Volume (mL) : 30/50/100  
Colors :

Product Code : GN500  
Material : Glass  
Volume (mL) : 10/20/30/50  
Colors :

Product Code : GN501\*  
Material : Glass  
Volume (mL) : 10/20/30/50  
Colors :

### 150mL Bottles

Product Code : PE150  
Material : HDPE  
Colors :

Product Code : PE150P  
Material : HDPE  
Colors :

Product Code : PE500  
Material : HDPE  
Colors :

Product Code : PE500P  
Material : HDPE  
Colors :

### 500mL Bottles

### 1L Bottles

Product Code : PE1000P  
Material : HDPE  
Colors :

Product Code : PE1001  
Material : HDPE (COEX)  
Colors :

### 5L Can

Product Code : PE1005  
Material : HDPE  
Colors :

### 30L Can

Product Code : PE1030  
Material : HDPE  
Colors :

\* The minimum order quantity for the products is 3000. Please contact the sales representative for color options.

## 3- Cap Selection

### Screwed Caps

Product Code : L400  
 Diameter : 18mm  
 Suitable Bottle : Glass 10/20/30/50mL  
 Colors :

Product Code : L401  
 Diameter : 24 / 28mm  
 Suitable Bottle : PE 30/50/100/150/500/1000mL  
 Colors :

Product Code : L403  
 Diameter : 18mm  
 Suitable Bottle : Glass 10/20/30/50mL  
 Colors :

### Fliptop Cap

Product Code : L402  
 Diameter : 24 / 28mm  
 Suitable Bottle : PE 30/50/150/500mL  
 Colors :

### Push Pull Cap

Product Code : L404  
 Diameter : 24 / 28mm  
 Suitable Bottle : PE 50/150/500/1000mL  
 Colors :

### Triggers

Product Code : T202  
 Diameter : 28mm  
 Suitable Bottle : PE 500mL  
 Colors :

Product Code : T102  
 Diameter : 24mm  
 Suitable Bottle : PE 30/50/100/150mL  
 Colors :

### Finger Sprays

Product Code : SG100  
 Diameter : 18mm  
 Material : PE 50mL  
 Suitable Bottle : Glass  
 Colors :

Product Code : SP101  
 Diameter : 24mm  
 Material : PE 30/50mL  
 Suitable Bottle : PE  
 Colors :

# Create Your Own Package

## 4- Cloth and Accessory Selection

### Microfiber Wiping Cloth

Product Code : MC01\*  
 Size : 40x40cm  
 Material : 80% Polyester 20% Polyamide  
 Colors : 

### Microfiber Polishing Cloth

Product Code : PMC03\*  
 Size : 40x40cm  
 Material : 100% Polyester  
 Colors : 

### Glass Surface Application Cloth

Product Code : TP001\*  
 Size : 25x25cm  
 Material : Cotton  
 Colors : 

### Application Pad

Product Code : PM001  
 Size : 7.5x7.5cm  
 Material : Cotton  
 Colors : 

### Application Cloth

Product Code : ST001\*  
 Size : 10x10cm  
 Material : Suede  
 Colors : 

### Applicator Block

Product Code : TK001\*  
 Size : 4x2.5x9cm  
 Material : EVA Sponge  
 Colors :

## 5- We Will Make Your Design

Our professional design team creates designs that are in line with your wishes and priorities. After your approval, all the details of your brand are determined and creative content is created. All works such as logos, boxes, labels and user manuals go through the process of our expert team. Your new brand is ready to be launched with eye-catching designs.

## Bottled Purchase

Choose your chemical and bottle, we will fill, label and ship it.

## Bulk Purchase

Pack and sell the products we offer you in 15L, 30L and higher volumes as you wish.

# Packaging and Design Conditions

- In case the private label owners procure the materials such as cloth, bottle, cap etc. on their own, the full performance of the product cannot be guaranteed.
- In cases where the bottle supply belongs to the private label owners, the filling process belongs to them.
- In cases where the “Create your own package” option is followed, the bottle, cap-trigger and cloth should be selected compatible with the products. Consult your sales representative during your choices.
- There are minimum order quantities for product materials (box, bottle, label, guide, etc.) in the custom marking process. Selection should be made taking into account the minimum order quantities. Consult your sales representative regarding this issue.
- Extra pricing is made for materials such as box, label, user manual, application blocks, etc. if they count as non-standard.
- The contents of the box, label and user manual are the responsibility of the private label owner.
- The private label owners can make designs on their own or request it from our company. Consult the sales representative for the design cost.
- In case the original box or label sample is requested, the sample cost belongs to the private label owner.
- In order for private labeling to begin, the order and payment process must be done.
