With nearly 20 years of industry experience, Artekya Technology is an R&D company that has made quality and technology its core competencies and produces nano-coating products for many surfaces such as metal, glass, ceramics, wood, and textile.

Thanks to its industry experience, NASIOL products, which is the main brand of Artekya Technology, are offered to the whole world through offices in the Czech Republic and the USA, as well as the R&D and Production Center, Head Office in Turkey.

Products with unique nano-technological formulations developed under the brand name NASIOL are used in the automotive, industrial, maritime and textile sectors, as well as in areas such as household and personal goods.

VISION AND TRADITION

R&D, manufacturing and global market success play an important role in our story. But our products are much more than that. Our products, which we have introduced to the market since the first years of our establishment, are part of our DNA and continue to transform the entire industry with their innovative technology.

TECHNOLOGY

NASIOL products are developed, tested and manufactured according to the highest industry standards and modern R&D techniques. Artekya believes in the importance of being a reliable source for nano coatings and it achieves this by optimizing its product portfolio with a perspective based on sectoral dynamics and sustainability.

Artekya continues its efforts to become a leading brand in its sector with its innovative products and original designs that it offers to the market in the field of nanotechnology.

NL272

NANO LAYER CERAMIC COATING

Within the nano-ceramic coating category, Nasiol NL272 is the premier force. Nasiol NL272 delivers long-lasting, unrivaled super hydrophobic traits, along with mirror-shine gloss that restores the paint and awakens the color.

WHY NL272?

- First in its class with a High Definition Reflection (HDR).
- Long-Lasting 10H Scratch Resistance.
- Full protection with a single layer of coating.
- Extreme durability with protection up to 5+ years.
- Recommended for skilled detailers.

Ultimate Protection Performance

With a single application, Nasiol NL272 forms a smooth single layer of hard nanoscale coating on the surface, protecting against scratches, retention of dirt and dust, and staining caused by environmental conditions, such as bird droppings. Nasiol NL272, with its ultra-high gloss finish, rejuvenates the original color of the surface and ensures the vehicle has an attractive look.

NL272

ZR53

NANO CERAMIC COATING

Nasiol ZR53 is a supreme formula to shield the auto paint from unexpected scratches and defend it with various adverse impacts caused by acid rain, bird droppings, road salt, and damaging sun rays. Minor or deep, autobody scratches will diminish the look, cost expensive repairs, and reduce the value of your car. One way to prevent all this is to take preemptive action by protecting the vehicle surface with the Nasiol ZR53 nano ceramic compound.

WHY ZR53?

- 10H hardness tested and certified by SGS.
- No special equipment required, everything is included in box content.
- Up to 3-years of enhanced durability.
- Crystal Gloss Reflection (CGR) with a distinct silky feeling.
- Recommended for professional detailers.

10H Nano Ceramic Coating

With its 10H surface protection formula, ZR53 forms a slick single layer reinforcement to combat against scratches and potential harm caused by mud, ice, snow, harmful sun rays, and various other elements of nature.

Not only will the surface be guarded against scratches, but the body of your vehicle will also acquire a silky tactual feeling, with crystal-gloss shine.

ZR53

XRO3

NANO CERAMIC COATING

Nasiol XRO3 coated surfaces achieve to a high hydrophobic surface and enables you to clean your car easily and with less time and energy.

WHY XRO3?

- No special equipment required, everything is included in box content.
- Up to 18-months of advanced durability.
- Super gloss effect with high water repellency.
- High scale resistance against destructive chemicals.
- Recommended for professional detailers.

Easily Applicable Car Paint Protection

Nasiol XRO3 has a super formula to shield the car paint from scratches and defend it against acid rain, bird droppings, road salt, and damaging sun rays. It rejuvenates the original color of the surface and ensures the vehicle has an attractive look.

XRO3

NEOCOATX

NANO CERAMIC COATING

Nasiol NeoCoatX is an easy applicable nano ceramic coating that combines ultimate Nasiol technology with traditional coating methods.

Nasiol NeoCoatX applied to your car ensures a protective layer against UV rays, strong chemicals, bird droppings and road salt. It delivers long-lasting, high hydrophobic traits, along with deep shine that awakens the paint color.

WHY NEOCOATX?

- Easy to apply through flexible flashing time.
- High scale resistance against chemicals.
- Up to 6-months of advanced durability.
(Up to 12 months with double layer application)
- Recommended for detailing enthusiasts.
- Up to 5 cars can be coated.

METALCOAT F2

NANO CERAMIC COATING SPRAY

The fastest method of coating a vehicle with a ceramic scratch resistance compound is only possible with Nasiol MetalCoat F2 spray-on application. Nasiol MetalCoat F2 can safely treat the surfaces of automobiles, bicycles, motorcycles, and trucks with its unique nano-coating formula by forming a single layer scratch resistance level.

WHY METALCOAT F2?

- Spray it and buff it! A simple worry-free application and cleaning.
- Instant gloss with an exceptional degree of water repellency.
- Perfect for detailing enthusiasts.
- Safe for exterior plastic trims.
- High scale resistance against destructive chemicals.
- Surface protection between 6 to 12 months.

TRIM COAT

TRIM AND PLASTIC NANO CERAMIC COATING

Nasiol TrimCoat keeps trim and plastics color-saturated with its high scratch resistance and ultra water-repellency features. It prevents color fading caused by UV radiation, strong chemicals, and road grime. Besides, it permanently restores dull and discolored parts to their original satin look.

WHY TRIMCOAT?

- Satin finish, semi-gloss appearance
- Water and oil repellent
- Protection against color fading
- Color restoration original appearance
- UV protection

COAT

TEMPOROAD

TEMPORARY PROTECTIVE FILM

Nasiol TempoRoad forms a temporary water-based film to shield the autobody from bug stains and sand from sticking on to the surface in areas where sandstorms are frequent.

Prepare and shield your vehicle from unexpected elements while driving with Nasiol TempoRoad. This unique compound is perfect for temporary applications.

WHY TEMPOROAD?

- One of a kind, eco-friendly formula manufactured to prevent bugs, and insects, dust, and sand particles from adhering to your vehicle.
- It can be removed safely without damaging the surface with water pressure.

PPFGUARD

NANO CERAMIC COATING FOR CAR PPF PROTECTION

Nasiol PPFGuard is a flexible nano-coating product that increases the performance of paint protection films, protects the applied surface against various factors and extends the life of the surface. It is applied in 2 layers and the waiting time between coats is very short.

Nasiol PPFGuard gives hydrophobic, UV resistance and easy-to-clean properties to film-coated surface without spoiling the physical properties of glossy, matte, and satin surfaces. It prevents the color fading caused by sun rays and does not cause any change in the structure of films with self-healing feature.

WHY PPF GUARD?

- Ensures UV and chemical resistance for paint protection films.
- Up to 18-months of durability.
- Super finish with high hydrophobicity.
- No blocking self-healing effect of PPF.
- Recommended for professional detailers.

GLASSHIELD WIPE-ON

NANO RAIN REPELLENT WIPES

Nasiol GlasShield Wipe-On forms an invisible layer on the windshield. With its quick and simple application, it enhances visibility and boosts safety with its remarkable water-repelling formula.

Convenience, speed, and performance are what separates Nasiol GlasShield Wipe-On from the rest. The application wipes go on fast and efficiently; regardless of the weather conditions, the blend will form a shield on the windshield surface to produce clear, uninterrupted visibility during rough rainy conditions.

WHY GLASSHIELD WIPE-ON?

- Specifically designed for windshields.
- Compact packaging and easy storage.
- Effortless application.
- Enhances visibility and safety.
- Durable up to 40,000 wiper blades or 1 year of daily usage.
- High durability against detergents and other chemical solutions.

GLASSHIELD

NANO RAIN REPELLENT

Ultra-high-water repellent formula manufactured to establish safe driving and clear visibility with less reliance on windshield wipers. Nasiol GlasShield is a powerful water repellent solution designed precisely for the windshield and glass portions of a vehicle. Safety and visibility are crucial during rainy and snowy weather conditions.

Once Nasiol GlasShield comes in contact with the glass surface, the liquid formula will bond and spread to repel water and to turn droplets into tiny beads, thus making the usage of windshield wipers a seldom occurring event.

WHY GLASSHIELD?

- All-season protection suitable for all geographical locations.
- Protects the age of windshield and wipers.
- Delays the forming of icing.
- Increases visibility performance for the windshield, side windows, and rear windshield.
- Comes in all in one small packaging for easy storage.
- Up to 80,000 wiper blades or up-to 2 years.
- Applicable for all types of auto glass.

POLISHING COMPOUNDS & PADS

CLEARUB 105

HEAVY CUT COMPOUND

Prepare the surface of a car body for ceramic coating treatment by eliminating major scratches. Nasiol ClearRub 105 is a heavy cutting compound aimed at rectifying degraded paint works. Nasiol ClearRub 105 is also ideal choice for finishing works on resistant top-coatings.

WHY CLEARUB 105?

- Achieve stunning results by using a small amount.
- Removes severe scratches smoothly.
- Effective on resistant coatings.
- Professional grade ingredients that are safe for any color, make and model.
- Silicon-free.

CLEARUB 305

MEDIUM CUT COMPOUND

Prepare the surface of a car body for ceramic coating treatment by eliminating medium scratches. Nasiol ClearRub 305 is formulated to blend with the scratches to make them disappear efficiently. Nasiol ClearRub 305 is also ideal choice for finishing works on resistant top-coatings and waxes.

WHY CLEARUB 305?

- Achieve stunning results by using a small amount.
- Removes medium scratches smoothly.
- Effortless application.
- Long-lasting shine with a smooth surface.
- Professional grade ingredients that are safe for any color, make and model.

Medium Cut Pad

CLEARUB 505

FINE CUT COMPOUND

Nasiol ClearRub 505 is a high-tech fine polishing compound that designed and improved for achieving high gloss level. Nasiol ClearRub 505 can be used on both brand new and old paints.

WHY CLEARUB 505?

- Achieve stunning results by using a small amount.
- Removes fine scratches smoothly.
- Effortless application.
- Long-lasting glowing shine with a soft to touch surface.
- Professional grade ingredients that are safe for any color, make and model.
- Silicon-free.

Fine Cut Pad
150 mm

CLEARUB 705

SUPER FINE CUT COMPOUND

Nasiol ClearRub 705 is a high-tech finishing compound that designed and improved to remove polishing marks, micro-scratches, and holograms. Nasiol ClearRub 705 can be used on both brand new and old paints to get deep shine effect.

WHY CLEARUB 705?

- Achieve stunning results by using a small amount.
- Removes minor scratches, swirls, and streaks smoothly.
- Effortless application.
- Exclusive gloss with a hologram-free surface.
- Professional grade ingredients that are safe for any color, make and model.
- Silicon-free.

EXCLUSIVE AIR CHANNEL SYSTEM

Premium polishing pads are designed to remove minor to severe oxidation, swirls, and scratches on vehicle surfaces. The hardness degrees of the polishing pads indicated with colors on the packaging, decrease from burgundy to blue.

Innovative air channel system, facilitate the evacuation of the heat generated during the polishing process and prevent overheating. It protects pads from getting deformed or torn after washing. It is easy-to-applied even in the most curved areas and suitable for both rotary and orbital polishing machines.

CAR INTERIOR CARE

LEATHER BOOST

NANO COATING FOR LEATHER PROTECTION

Maintaining leather surfaces in your automobile is essential for extending the life-span of the material. Choosing the right solution in preserving leather products can significantly impact the look and feel of the interior. Nasiol LeatherBoost protects artificial and genuine leather from fading and staining, all the while preserving its authentic color and smooth touch.

WHY LEATHERBOOST?

- It will protect the leather surface from water and liquid stains.
- Can easily be applied using the applicator block with suede cloth.
- Extends the life-span of interior leather components on automobiles, RVs, trucks, boats, and other watercrafts.
- Designed with a new cutting-edge formula using nanotechnology.
- Only a small amount is required to cover an extensive section with significant results.

THE LEATHER

CABINCARE

NANO COATING FOR CAR FABRIC

Nasiol CabinCare is a powerful stain repellent solution that is formulated to deter harmful stain-causing substances from the surfaces of fabric base seats and floors.

Nasiol CabinCare is designed to prevent dirt, liquid, and mold from penetrating the fabric, thus preventing staining and making cleaning a breeze. Nasiol CabinCare also maintains the appearance and breathability of all material.

WHY CABINCARE?

- Guards against spontaneous spills penetrating car seats.
- Simple to apply; spray it and let it dry.
- Increases the lifespan of the seats.
- One application lasts up to 6 months.
- Non-allergic and toxic free formula.

NANO SEAT PROTECT

CAR FABRIC PROTECTION WITH NEW CAR SMELL

Nasiol Nano Seat Protect serves as a barrier between the fabric surface of the interior of your vehicle and from aggressors that can potentially cause damage, such as spilled drinks, muddy shoes, and wet outfits.

Nasiol Nano Seat Protect, with its fresh fragrance, is the solution that will protect the seats of your vehicle from stain-causing invaders while offering a fresh scent as a bonus.

Heavy-duty stain defender formulated using the latest advancements in nanotechnology, with a long-lasting new car fragrance in a portable spray bottle.

WHY NANO SEAT PROTECT?

- Blocks stains from penetrating the fabric.
- Formula is combined with NASIOL NEW CAR SMELL fragrance.
- Non-allergic and toxic free formula.
- One application lasts up to 4 months/5 washes with approved detergents.

NEW CAR SMELL

NEW CAR SCENT

Excite your senses with fresh and long-lasting new car fragrance.

Remember the very first time you step into your new car, and the fragrance of new car hit your senses? After a while, the scent inside of your new vehicle fades away. But what if it didn't? What if you can continue having the feeling of stepping into a new car, regardless of how long it has been since you bought your vehicle?

Nasiol New Car Smell spray gives the interior of your car the exact new car fragrance. It is easy to apply. Just spray it, and the scent will remain in your vehicle, and the memories will rejoice you every time you step into your car.

WHY NEW CAR SMELL?

- Easy application for long-lasting essence.
- A fresh and clean fragrance that will reveal the spirit of a new car.

CABINSHINE

TRIM AND PLASTIC RESTORER

Nasiol CabinShine shields the interior plastic materials from sunlight and helps to combat premature aging and discoloration.

The dashboard, glove box, console, door handles, are all prone to dust, aging, and fading. To prevent interior plastic, rubber, and vinyl parts from deteriorating, protecting them with a specially formulated solution like Nasiol CabinShine is required. Nasiol CabinShine is advised to be used after cleaning the surfaces with Nasiol TEM APC Pro.

WHY CABINSHINE?

- Revitalizes the plastic, rubber, and vinyl parts of the interior of the vehicle.
- It repels dust and dirt build-up.
- Illuminates the interior parts and keeps your automobile looking newer.
- It extends the life of interior vehicle components.

TEM APC PRO

ALL PURPOSE CLEANER

Nasiol TEM APC Pro is a mighty interior cleaner designed to wipe out dirt and stains on the surfaces of car seats, flooring, plastic sections, and roof interior.

Stubborn stains that are impossible to remove with soap and water require a mixture that is strong enough to expel the stains without causing damage to the surface or surrounding areas.

From automobile flooring to car seats, to the roof of the car, Nasiol TEM APC Pro will eliminate persistent stains from the surface without the need for extra cleaning equipment.

WHY TEM APC PRO?

- Removes tough stains with minimal effort.
- The compound does not leave a chemical residue after cleaning is complete.
- Does not contain toxic chemicals that are hazardous to human health.
- 1/45 min. dilution

CLEANION PRO

FOAM CAR WASH SHAMPOO

Cleanion Pro with a thicker, higher, slicker foaming formula, your cleaning experience is like you've never seen before! This ultra-new pro formula creates hyper foam and sticks powerfully to your paint cut through dirt and grime.

With the perfect aftercare shampoo formula, Cleanion Pro New Formula softens the bond between the surface and dirt particles and provides easy cleaning by reducing surface abrasion for hard-to-shift grimes. It has been specifically formulated to accompany Nasiol Nano Coatings. The advanced technology of this new solution improves durability, bending of ceramic coating and gloss.

WHY CLEANION PRO NEW FORMULA?

- Professional car wash shampoo that removes dirt and grime with a safe coating formula.
- Safe to use on surfaces treated with sealants, wax, and ceramic coating.
- High foam content and easy to rinse
- Ensure maximum gloss
- A fresh smell with a citrus fragrance

CLEANION

CLEAN

UNIVERSAL PRECLEANER

It helps to remove contaminants on hard surfaces before nanoceramic treatment.

Preparing the surface before applying a ceramic coating compound is essential to getting the most out of the product.

Nasiol Clean is one-of-a-kind; the gentle surface cleansing solution works to whisk away dirt, dust, and stains to prepare the way for nano ceramic application.

WHY CLEAN?

- Excellent solution for surface preparation before Nasiol nano ceramic applications.
- Helps to get the maximum benefits out of the ceramic coating solution.
- Removes polishing residue particles from the surface.
- Nasiol Clean is a perfect companion to eliminate dirt, dust, mud, and various stain residue from the surface efficiently.

LEATHER CLEANER

PREMIUM FOAM CLEANER

Leather Cleaner is the ultimate cleaner for natural and artificial leather surfaces, helping to remove dirt and stains. It allows the surface to be cleaned in accordance with daily use without damaging the leather surfaces. It can also be applied to all matte, glossy, and colored leather surfaces. It leaves a fully matte finish and is suitable for all types of leather.

WHY LEATHER CLEANER?

- Original matte finish
- No greasy residue
- Easy application and fast results
- Keeps the original appearance of the leather

DETAILER SHINE

TRIM AND TIRE SHINE

Nasiol DetailerShine is an exclusive formula to clear dirt and grime from the tires while giving them a fantastic shine.

Nasiol DetailerShine restores the original color of tires and the trim portions with its powerful deep glaze formula, and it makes removal of dirt a breeze for future cleaning.

WHY DETAILERSHINE?

- Long-lasting stunning shine.
- Nasiol DetailerShine clears dirt and mud without much effort.
- It makes future maintenance and cleaning of the surface easier.
- No need to use a pressure washer to clean.

Accessories

CAR WASH MITT

DUAL-SIDED SUPER SOFT
CHENILLE WASH MITT

Nasiol Dual-Sided Chenille Wash Mitt is a plush wash mitt with a soft texture developed for you to wash your car safely. It allows dirt to be removed without scratching your car's paint. It can be used safely even on the most sensitive painted surfaces.

TWIST CAR DRYING TOWEL

HIGHLY ABSORBENT CAR DRYING TOWEL

With its highly absorbent feature, Nasiol Twist Car Drying Towel absorbs water deeply and helps dry the surface in one go. You can use it safely, even on the most sensitive painted surfaces. It has piped edges and a long pile twist microfiber and does not scratch the surface, and leaves no dust, marks, or stains on the surface.

WIPE & BUFF

MICROFIBER CLOTH

10pcs

Ultra soft and streak-free microfiber developed for wiping and buffing of nano coating operations without leaving any haze.
